Fluke Helps Crimson Defeat the Green

BY A NARROW MARGIN

Indians Suffer First Defeat at Syracuse—Brown Wins by Narrow Margin Over Vermont—Williams Defeats Amherst.

The football championship for 1911 has been decided. Princeton takes the throne. It has beaten three main candidates for the honors by small margins and through luck largely. The Carlisle Indians fell before the Syracuse eleven for their first defeat of the season. The Springfield training school closed its schedule by beating the "Aggies," and Williams did likewise to Amherst. The results:

At New Haven—Princeton 6, Yale 3.
At Cambridge—Harvard 5, Dartmouth 3.
At Williamstown—Williams 8, Amherst 0.
At New York—Wesley 6, New York university 2.

GRAVE FOR YOUNG BEATTIE.

Father Purchases a Cemetery Lot and Sells Out His Business.

Richmond, Va., Nov. 20.—As the final step toward the exodus of the family of Henry Clay Beattie, jr., who is to die in the electric chair on November 24, Henry C. Beattie has disposed of the major part of his business interests in Manchester, or South Richmond, where the Beatties have lived.

Nearly a month ago, it was learned Saturday, the grief-stricken father took steps to terminate his business career here. The Beattie family is preparing to leave the state following the death and burial of Henry. Secrecy has characterized the deal whereby the Beattie department store was turned over to a stock company incorporated under the name of Hutzler & Co. The company was incorporated on October 20, for \$25,000. Henry C. Beattie, sr., is said to retain only about one-fifth of the stock, although he is president of the corporation. Leroy Hutzler is secretary and treasurer, while Joseph Marcus is vice-president.

The father of the murderer has purchased a burial lot in Maury cemetery in this city and is said to have practically arranged all details for the last duty to his son.

It was rumored that Beattie had confessed his guilt to his father, but Douglas Beattie, a brother of Henry, absolutely denies that such is the case.

The Rev. Mr. Russell Cecil, pastor of the Second Presbyterian church of this city, where Gov. Mann worships, held a conference yesterday with the governor, requesting him to reconsider his refusal to commute the sentence of Beattie.

It is not considered likely that Gov. Mann will alter his decision in the case.

UNTERMYER IS VEHEMENT

Calls the Tobacco Case a Judicial Farce

GIVES VIEW OF STEEL TRUST

Favors Supplementary Legislation to Enforce the Sherman Law—Outlines His Plan for Federal Supervision of Trusts.

Washington, Nov. 20.—"Congress should force the government to appeal from the decree in the American Tobacco company case," said Samuel Untermyer of New York Saturday at Washington before the Senate committee on interstate commerce. "The court should be forced to say whether the dissolution plan agreed upon is what is meant by an order of disintegration. If the matter went to the supreme court I should expect that body to say that this is not disintegration." Mr. Untermyer said he understood that the attorney-general had been to some extent consulted in the formation of the plan of dissolution, but that he thought the tobacco company had "done" the attorney-general.

The pitiful and humiliating fiasco in the American Tobacco company case has strengthened his belief that supplementary legislation is necessary for the enforcement of the Sherman anti-trust law, said Mr. Untermyer, who is chairman of the sub-committee on trust legislation of the national civic federation. "There must be some body created that cannot only inquire into conditions of corporations that have been declared outlaws, but can prescribe the manner of disintegration and see that its orders are carried out," he said.

"The menace of the United States Steel corporation is not in its size or the amount of its capital stock but in the concentration of the money power behind it," said Mr. Untermyer. "It is the most menacing of all the combinations because the power makes every competitor in effect a puppet. The powerful hands that protect the steel business have control of the greatest banks, trust companies and railroads; and it is impossible for competition to exist against it." He expressed the belief that merely limiting their capital stock will not curb trusts.

The Sherman law must be enforced up to the point where the industry confronts ruin from competition, he said; and then the government must sanction trade agreements that will give stability to business and permit industries to make a reasonable profit. He advocated the establishment of an industrial commission to regulate such agreements and the federal chartering or licensing of interstate corporations.

Senator Cummins asked how a "reasonable profit" could be determined by a federal commission in deciding how far industries could combine. Mr. Untermyer suggested that the lowest cost of manufacture be taken as a basis and a reasonable profit be added. He did not advocate agreements as broad as to insure a profit to every manufacturer, whatever his cost of production. Mr. Untermyer declared there are now secret agreements in one-half of the industries of the country. "Our greatest danger is not from the great trusts, but from these secret pools and agreements with which the business of the country is honeycombed," he said. He urged the application of the Sherman law to the big trusts, but said federal supervision should control reasonable agreements in various industries.

"What is your definition of trust?" asked Senator Cummins. "A combination in corporate form of a substantial part of an industry under a single ownership, either through a holding company or otherwise," said Mr. Untermyer. "It does not necessarily involve monopoly, but such a control of the trade that it virtually amounts to a monopoly." Mr. Untermyer described the method of dissolving the tobacco trust as the "most colossal judicial farce ever enacted." "If it is allowed to stand without appeal," he said, "it legalizes action that would otherwise be illegal under the Sherman law, and prevents prosecution of a combination that would heretofore have been considered illegal."

Chicago, Nov. 20.—The Senate committee investigating the election of William Lorimer to the United States Senate will close its Chicago hearing on Wednesday. Announcement to this effect was made by Chairman Billingham Saturday. The committee will adjourn to reconvene in Washington on December 5. Senator Lorimer will probably be the first witness in Washington, unless the committee decides to have him go on the stand before the end of the Chicago hearing.

Col. Frank O. Lowden, Republican national committeeman from Illinois, who turned his proxy over to Senator Lorimer, is prepared to revoke this by sitting in with the national committee when it meets next month in Washington. Col. Lowden at the time he transferred this authority to the junior senator was in impaired health and it was said he intended to retire from active participation in politics.

URGE VOTE TO AID McNAMARA

Socialists of Los Angeles Bespeak Labor Support for Candidate.

Atlanta, Ga., Nov. 20.—Alleging that the enemies of organized labor have made Los Angeles the battleground of a movement designed to crush and intimidate unionism, Socialist delegates appealed Saturday to the convention of the American Federation of Labor to help them to elect Job Herriman mayor of the California city. The Socialists submitted resolutions touching on the matter which were recently adopted by the executive committee of their party on the suggestion of Congressman Victor L. Berger.

The resolutions set forth the allegations against the so-called enemies of labor and declare that a victory would materially help the case of the McNamara brothers.

President Gompers assured the Socialists that the organization would do all in its power to elect Herriman.

The convention of the federation was in session but a short time Saturday, and adjourned early to permit the committee to work.

It is understood that the resolutions committee has decided to report adversely on the motion requesting President Gompers and several other leaders to resign from the National Civic federation and the resolution proposing initiative in election of federation officers.

AMERICAN'S IN CHINA IN PERIL OF MASSACRE

Minister Calhoun Orders All in Interior to Go to Treaty Ports—Fears Anti-foreign Rising.

Peking, Nov. 20.—United States Minister William J. Calhoun at Peking peremptorily ordered all Americans Saturday to leave the Chinese interior for the treaty ports. The outlook for an anti-foreign outbreak is considered to be very threatening.

It was regarded as practically certain from the first that if the present disorders in China were long continued, they would ultimately develop a phase of hostility to alien residents. The leaders, both of the imperialists and rebels, realize the danger to the Chinese themselves of an attack on foreigners, and have undoubtedly done all in their power to prevent it. The masses of the people, however, are bitterly anti-foreign almost to a man, woman and child, and reports from every direction make it plain that they are rapidly getting out of hand.

Less than thirty years ago typewriters could not be sold and the telephone was but poorly patronized, principally because of the lack of perfection in operation.

Now of the two methods of transmitting thought, the telephone, it is claimed, is the more accurate, as it transmits the sound of the human voice and expert operators have been obtained. Typewriter manufacturers claim that their machines have been brought to such

REYES ARRESTED AT SAN ANTONIO BY U. S. MARSHAL

Insurrectionary Leader Charged With Violating the Neutrality Laws by Planning Military Expedition Into Mexico.

San Antonio, Tex., Nov. 20.—General Bernardo Reyes, head of the Reyesista

ject, it is alleged, a revolution to overthrow the Madero government and place Reyes in the president's chair, was arrested Saturday afternoon charged with violating the neutrality laws. The arrest was made at the general's home here. He was taken in custody by United States Marshal Nolte and Deputy Marshal Dibrell.

The general, protesting, was taken before Federal Commissioner Edwards and formally charged with breaking the neutrality laws by inciting an insurrection against a friendly power and planning a military expedition. He was held in \$5,000 bail which was immediately supplied by Colonel F. A. Chappa and Albert Kronosker of this city. The general declared that his arrest was "ridiculous and inspired by his enemies who persecuted him maliciously."

The United States authorities have sent a number of secret service men here in the last two weeks and their men

have been working quietly. The arrest of Reyes followed a rumor circulated Saturday morning that at least a dozen men had arrived from Mexico City as agents of Madero for the purpose of making away with Reyes. The general, fearing assassination, kept within his home with a guard surrounding it.

Reyes and other prominent Mexicans have been holding secret conferences here every day for the last two weeks, and many of Reyes' conferees have returned to Mexico with the purpose, it is alleged, to foment a rebellion. Reyes denies that he contemplates a revolution.

Troops stationed at Fort Sam Houston here Saturday, received orders to keep in readiness to go to the border at any moment for the purpose of patrolling the Rio Grande and enforcing the neutrality laws. It is asserted by Mexicans in this city that large quantities of arms and ammunition have been sent across the river to malcontents.
